

## Unit 8.6 Materials List

*Updated 6/9/2017*

Consider this a “Teacher’s Shopping List”. This list contains the physical materials that must be acquired to complete the unit’s lesson activities.

The materials are separated by consumables and non-consumables. Quantities per class listed are the maximum quantities you will need for one class assuming a class of 30 students.

**A note on printed materials:** Handouts, student guides, other paper materials and electronic resources are not listed here. Please refer to individual lesson plans for the most up-to-date links for these items to determine an actual page count of printed materials needed for a particular lesson.

<b>Consumable Materials</b>		
<b>Description</b>	<b>Total Quantity Needed per class</b>	<b>Lesson</b>
Science Journals	30	all
Colored Pencils or Markers	30	L1, L2, L8
