

Build Your District's HB4048 Summer Program in Grades 6-8 Science with Mi-STAR

We invite district teacher teams to join Mi-STAR in a supportive virtual workshop environment to build a fun, hands-on, innovative summer program for students, designed for NGSS and based on our vetted, problem-based science curriculum materials. Prepare your students to jump back into learning next fall with supplemental science and engineering this summer!

Use HB4048 ESSER funding to enroll your team of district teachers in these workshops.

- Four virtual sessions via Zoom (90 minutes each) led by Mi-STAR curriculum development team
- Sessions to occur in late May / June
- Teacher teams will develop a curriculum plan and materials to implement this summer
- Ongoing support / check-ins through summer
- Open to any Michigan teachers grades 6-8
- Additional support session provided to districts teams that are new to Mi-STAR

\$1500 per district team, including digital lesson materials

*Up to 5 teachers per team; for larger teams contact us for a custom quote - mi-star@mtu.edu

Limited enrollment available. Course must meet minimum numbers to run.

Submit Commitment Form at: <https://mi-star.mtu.edu/l/hb4048>

Deadline: April 20, 2021
