**Would you like to create the future for middle school STEM education in Michigan?**

*If so, you should be a part of Mi-STAR!*

### ***What is Mi-STAR?***

Mi-STAR, the Michigan Science Teaching and Assessment Reform project, is developing a new Michigan-based, fully integrated, middle school science curriculum. The curriculum will emphasize connections between science, technology, engineering and mathematics and will engage students in the practices of science and engineering.

Mi-STAR is a partnership of public higher education and K-12 schools in Michigan funded by the Herbert H. and Grace A. Dow Foundation.

### ***What are the benefits?***

Mi-STAR is looking for faculty members, researchers and post-doctoral scholars who are interested in developing the new, Michigan-based, middle school integrated science curriculum.

There are three levels of faculty participation:

- Curriculum Development Faculty work with teachers over the summer to create curricular materials (1 week minimum commitment at \$500/day)
- On-Call Faculty serve as year-round content expert consultants (1-8 hour commitment [minimum] at \$62.50/hour)
- Curriculum Review Faculty review the curriculum units that are developed providing feedback on technical accuracy as well as recommendations for improvement (8-16 hour commitment at \$62.50/hour)

### ***How can I find out more?***

Visit the Mi-STAR website at <http://mi-star.mtu.edu/> - it is continually updated.

### ***I want to be a part of Mi-STAR! – What should I do?***

- Fill out and submit the form on the next page!

I am interested in learning more about Mi-STAR and would like to receive more information.

(Note: This form is online at <http://mi-star.mtu.edu/contact-us/> ) To save the form for attaching to an email, select *File* then *Print* then select *Adobe PDF* as the printer.
